

## Guidelines

# Colors

Our user interface uses a strict panel of colors. It is composed of shades of gray and an electric blue. We also use basic color code to inform our users about several types of actions.

Blue is for main action or information.  
Red and Green are used only with buttons for validate/delete actions.

# Typography

Always use a **Sans Serif** font for curent text. For readability and web accessibility please use **Arial, Helvetica or Verdana**.The minimum size is 11px. Minimum size should be used for tooltips, navigation and informations.  
For text related content (articles, descriptions...) please use **16px** font.

# Colors

On light backgrounds, please use **#666666**, we recommends the use of a 1px shadow (white)  
On dark backgrounds, please use **#F7F7F7** or **#FFFFFF** and black shadow.

Custom fonts

You can use custom fonts for visuals or titles.  
Please, make sure it is easy to read and add a value to the content.

Text on images

Deezer displays **editorial content** on its homepage.  
This content includes an **image**, a **color background** and **text color**. Please, pick a color that is easy to read and goes well with the picture. We recommend to choose a color already in the picture.

Buttons

You'll find different kinds of buttons. Please, use them wisely and be sure to never use more than one **blue button** per page. It should be use for main action only. **Arrow buttons** should be used in steps by steps actions.

Track lists

There are different kinds of track lists on Deezer. Album track list, playlist, waiting list and playlist on user's profile are not the same. Theses lists are based on two differents style (light and dark) and shows several informations depending of the list.

Playlists

Playlist shows several informations like the title of the track, album, name of the artist, lenght,popularity and checkboxes for edition. It has a header. List is in fullwidth from the sidebar.

Waiting List

This list is deployed from the music player. It is in the same colors as the player itself. It shows the track title, the artist name, share, buy and delete icons.

Album List

Album list shows only track title, lenght and popularity. It is not editable.
